Who we are

Pixel Magic Ltd. is your ultimate business solutions provider. We specialize in creating positive awareness of companies and business entities through the web and print media as well as using ICT to increase efficiency and effectiveness. We provide tailor made solutions such that individuals, SMEs and huge multinational corporations all find that we have something that suits their needs.

We understand that our clients have unique needs, and we pride ourselves in meeting their unique needs to their satisfaction.

Pixel Magic Ltd. has been in operation since 2006, first as JT's Digital World Ltd, until the change of name in 2009. We have a team of experts both full time and part time who have wide experience gathered working in various firms over the years, and together make the winning team.

We are committed to your success.

What we do

We provide a full range of services which are all aimed at making your work easier and more effective.

the WEB

Web Design: We design websites of all kinds, ranging from basic html websites to fully functional database driven systems and e-commerce enabled websites. We also develop applications to work with your site, both out-of-the-box and customized ones.

Web Hosting: We have reliable, secure and fast servers which guarantee your website 99.9% uptime, and with generous features and resources available to you. Our Web hosting is presented in different packages so that you can choose the one that best suits your needs. It is also scalable so that you are able to request for more features when you need them.

Domain Names: We register both international and Ugandan domain names. (you.com/.org/.net and you.co.ug/.or.ug/.ug). International domain names are free when you order for a hosting package.

Email: We provide custom email addresses and accounts with vast amounts of storage space and also presented in different packages. (For example: you@yourcompany.com) Email is provided free when you buy a webhosting package.

design

We have built a reputation of exclusive graphic design of web and print materials, including brochures, banners, newsletters, magazines, adverts and calendars. We have creative designers who develop concepts from scratch up to the point of application either on the web, in print or on promotional items.

print

We use industry standard technology so as to provide high quality print without putting holes in any pockets. We print full color on all media, including large format like banners and billboards.

ICT

In the world today, ICT and Business are so intertwined that it is virtually impossible to talk about one without talking about the other. We have a team of experienced professionals who have a wealth of knowledge that you can tap into for the benefit of your company.

branding

We give your Corporate Identity a touch of new life. We make exclusive brochures, posters, flyers, banners, T-Shirts, mugs, pens, keyholders and many other products that one may need to communicate to his audience/market. We also help you plan your promotions and design concepts for a smooth flow and maximum effect.
